PROFESSIONAL EXPERIENCE

Full-Stack Web Developer

EvoxtyMarketing Agency,Chakwal | Full-Time | On-Site **July 2024 - September 2025**

Developed and maintained scalable MERN stack applications, delivering secure and high-performance web solutions. Built advanced platforms including MLM investment systems, affiliate programs, and P2P transaction modules while ensuring seamless API integration and optimized user experiences.

Key Responsibilities:

- Developed scalable web applications using MongoDB, Express.js, React.js, and Node.js.
- Built an MLM Investment Platform with automated ROI distribution, referral tracking, and wallet management.
- Developed an Affiliate & P2P System with real-time wallet synchronization and secure transactions.
- Designed and integrated RESTful APIs for efficient frontend-backend communication.
- Optimized application performance through debugging, refactoring, and best coding practices.
- Managed version control and team collaboration using Git/GitHub and supported CI/CD workflows.

Full-Stack Web Developer

ProjectStarlit M3 | Full-Time | Remote **Oct 2025 - Dec 2025**

Worked as a Full-Stack MERN Developer on a startup-grade AI-powered platform, building scalable systems and intelligent workflows. Developed modern web applications integrated with AI tools using Google Gemini and other AI services, focusing on enhanced user experience and performance optimization.

Key Responsibilities:

- Built full-stack applications using MERN stack (MongoDB, Express.js, React.js, Node.js) with scalable architecture.
- Developed AI-powered tools and workflows using Google Gemini (Google AI Studio) for intelligent user experiences.
- Integrated Stripe-based credit system for secure payments, usage tracking, and subscription-style monetization.
- Worked with modern backend services including Firebase, Supabase, and Neon for scalable data and authentication systems.
- Designed and optimized APIs and backend logic for high-performance and real-time applications.
- Collaborated in a fast-paced remote startup environment, delivering production-ready features efficiently.

Full Stack Engineer

NACTA/NIFTAC | Full-Time / Intern | On-Site **Jan 2026 - Present**

Worked as a Full Stack Engineer in a federal government organization, contributing to secure and scalable digital systems for mission-critical operations. Responsible for end-to-end web application development, backend services, and frontend interface implementation.

Key Responsibilities:

- Developed and maintained full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js) with a focus on scalable and secure architecture.
- Built and optimized backend APIs and services for high-performance data processing and system reliability.
- Designed interactive dashboards for real-time data monitoring, reporting, and administrative control systems.
- Worked on database design and optimization to ensure data integrity, efficiency, and scalability.
- Ensured adherence to security standards and best practices for sensitive and mission-critical systems.

EDUCATION

Jinnah Public High School Of Chakwal

Matric with Computer Science **April 2019 - June 2021**

Superior Group's of College of Chakwal

ICS (Computer Science) **Sep 2021**

TECHNICAL PROFICIENCIES

- **Frontend Development :** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Bootstrap, Material UI, Redux Toolkit, Context API, React Query (TanStack Query), Framer Motion, Responsive UI/UX Development, Component-Based Architecture
- **Backend Development :** Node.js, Express.js, RESTful APIs, GraphQL, JWT Authentication, OAuth, Middleware Architecture, Microservices, Role-Based Access Control (RBAC), Secure API Design, Webhooks Integration
- **Database Management :** MongoDB, PostgreSQL, Firebase, Supabase, Mongoose ODM, Prisma (basic), Database Schema Design, Indexing, Query Optimization, Data Modeling, Performance Tuning
- **AI & API Integrations :** Google Gemini (Google AI Studio), OpenAI API Integration, AI-powered workflows, Prompt-based automation systems, Third-party API Integration, Stripe API, Payment Gateway Integration, Webhooks Handling
- **Development & DevOps :** Git, GitHub, GitHub Actions, GitLab CI/CD, Postman, npm/yarn, Environment Configuration, Build Optimization, CI/CD Pipelines, Version Control Best Practices
- **Deployment & Hosting :** Vercel, Netlify, Render, VPS Deployment (Ubuntu), Nginx Basics, Domain & Hosting Configuration, SSL Setup, Production Deployment Workflows
- **Tools & Platforms :** VS Code, Figma, Postman, GoHighLevel, WordPress, Firebase Console, Supabase Studio
- **Core Competencies :** System Design Basics, API Integration, Scalable Architecture, Performance Optimization, Real-Applications, Secure Web Applications, Dashboard Development, Authentication Systems, Code Reviews, Debugging, Testing

CERTIFICATES

Ehunar

Full Stack Web Development Certification | Trained in end-to-end web development covering frontend and backend fundamentals. Includes HTML5, CSS3, Bootstrap, Tailwind CSS, ShadCN UI, JavaScript (ES6+), WordPress, responsive UI/UX design, and basic backend integration concepts to build complete web applications.

Nexcus Berry Training & Solution

MERN Stack Certification | MongoDB, Express.js, React.js, Node.js, Redux Toolkit, Stripe integration, API development & full-stack application development.
